Lotus Europa - Colin Chapman's mid-engined masterpiece

Matthew Vale 2022-04-13 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting

with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

The Daily Mirror World Cup Rally 40 Graham Robson

2010-04-08 Lasting six weeks, and covering 16,000 miles from London to Mexico City via some of the most varying, tortuous and difficult terrain on three continents, the 1970 World Cup Rally was a unique high-speed event, attracting many serious works teams such as Ford and British Leyland. Despite the tremendous amounts of money spent choosing and developing

new cars, completing months-long route surveys, and analysing every detail of diets, oxygen provision, and the number of crew members, out of an entry of more than 100 cars, only 23 cars made it to the finish. It was then, and remains now, the toughest rally of all time.

Ford's Feisty Capri 2009-10-01 The fabulous success of Ford's Mustang in America inspired Ford's British and German branches to do likewise. The sporty coupe they created, the Ford Capri, was launched in 1969 as the first joint production of the brand-new Ford of Europe. Billed as "The car you always

promised yourself”, the Capri was a signal success with almost 1.9 million made when production ended in 1987. Its rakish lines, keen pricing and broad power offerings gave the Capri wide appeal not only in Europe but also in America, which imported the Mark I and II versions from 1970 to 1977 for sale through Lincoln-Mercury dealers. The Mark III for Europe followed in 1978. No paper tigers, these classy coupes were formidable rally and racing cars as this book’s illustrations reveal. A Capri insider, former Ford of Europe executive Karl Ludvigsen introduces the Capri saga and illuminates the many rare images from his world-famous Ludvigsen Library. Runways & Racers Terry O'Neil 2011-05-19 Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would

receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities, and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished.

Amedee Gordini Roy Smith
2013-04-05
This is a story of excitement, laughs, astonishment and anger - a story of the determination of a man with a dream and a passion for motor racing in the big leagues. It is the

first time that the history of the always under-financed Gordini racing team has been documented in English, and the first complete story of Gordini himself in any language. This volume will appeal to new enthusiasts and old hands of Formula 1 and sports prototype racing, especially those who have owned a Gordini-badged high-performance Renault road car. It charts Gordini's early life and beginnings in motorsport, up to 1969 when Renault took over the Gordini company, keeping his name on all the racing engines until 1986, before finally

resurrecting it for a performance version of the Renault Twingo and Clio in 2009. The book is packed with evocative period images from important collections, supplementary transcripts in English from many contemporary interviews, plus recollections from former employees remembering their time working with Gordini, and an exhaustive set of statistics. All the way it's a roller coaster of joy, despair, humour, and stunning images. The racing legend of 'Le Sorcier' lives on.
