After the Honeymoon Daniel B. Wile 2008 After the honeymoon. The very words carry a burden of sadness, as if for a short while we lived in a golden trance of love, and now weve been jolted awake. Immediately comes the thought, Oh no! Is this the person Im supposed to spend the rest of my life with? When choosing a partner, we are choosing, along with that person, a particular set of problems that we will be grappling with for the next ten,

twenty, or even fifty years. Dan Wile shows how to take advantage of the inevitable problems that occur in a relationship to deepen the sense of connection. Most of these problems result from feelings we are unable to express and conversations we are unable to have. We become angry because we are unable to confide feeling hurt. We become defensive because we are unable to confide feeling threatened. We become uncompromising because of the hidden compromises we are already making. Exposing these undercurrents can turn fights into intimate conversations.

Venice Vampyr (Novellas 1 - 4)

Tina Folsom 2015-08-16 This box set contains the following novellas: Novella 1 – Isabella & Raphael Final Affair – Dante & Viola Sinful Treasure – Lorenzo & Bianca Sensual Danger – Nico & Oriana Novella 1 – Isabella & Raphael Isabella Tenderini, a wealthy merchant's widow rescues a stranger from drowning in one of Venice's canals. And how does the man repay her selfless act? By kissing her - her, a respectable woman. Not only is Raphael di Santori grateful for his life being saved, he would also like to thank his rescuer very intimately - more intimately than decorum allows. But then, Raphael has never been one to play by the

rules - as a vampire he doesn't have to. Final Affair – Dante & Viola Viola has been given three months to live but she refuses to die a virgin. She travels to Venice where she wants to experience physical pleasure with a man without causing a scandal for her family. Afterward, she plans to take her own life to ensure she exits the world painlessly and with dignity. Unfortunately, the man she meets in a disreputable club couldn't be a worse choice for her plans. Dante, a hedonistic vampire, saves Viola from a violent rake. To stop her from seeking out even more dangerous men to find carnal pleasures, he offers

her a night of passion in his arms, only to discover she's a virgin. Sinful Treasure – Lorenzo & Bianca When vampire rake Lorenzo Conti finds a beautiful woman sleeping in the bedchamber of his newly acquired home, he believes her to be a housewarming gift bestowed upon him by his thoughtful friends. The mysterious Bianca rushes to Venice upon her father's death but arrives too late: the house that she believes to contain a priceless treasure has already been sold. Hoping the new owner won't move in for another few days, she breaks in to search for her father's elusive treasure. But

when Lorenzo discovers her, she has to think fast and find a way to remain at the house to continue her search. Sensual Danger – Nico & Oriana When vampire Nico purchases a house to further his fellow vampires' goal of creating a secure compound within Venice, he doesn't expect to get a headstrong wife in the bargain. He plans to send her to the mainland after their wedding night so he can continue his debauched bachelor life. But when he meets the unexpectedly beautiful Oriana for the first time, his plans are forgotten. However, Oriana would rather pursue her scientific research

than play the submissive wife to her new husband. When Nico finds out that his wife has secrets that could endanger not only him, but the entire vampire population of Venice, he has to make a choice: get rid of her, or seduce her to join his side.

Luckily, seduction is what Nico does best ... Other books by

Fire Prevention Handbook

Derek James 2016-06-06 Fire Prevention Handbook is a handbook on fire prevention and covers topics ranging from the so-called Fire Triangle to

fire extinguishers, fixed systems, fire alarms, and workforce training. Arson, highly flammable liquids and LPG, and fire insurance are also discussed. This handbook has 13 chapters and begins with an introduction to the Fire Triangle, an elegantly simple way of illustrating the three prerequisites for a blaze—heat, fuel, and oxygen—in the context of fire prevention and fire extinguishment. Attention then turns to the causes of fire, including electrical installations and apparatus, malicious or intentional ignition, and the burning of rubbish. The following chapters focus on the basic steps of fire prevention;

the legal requirements that apply to fire prevention; fixed systems; and fire alarms. The training and motivation of in-house fire teams, the hazards of highly flammable liquids and LPG, fire insurance, and how to prevent arson are also considered. This text is intended for managers or supervisors of small-to-medium size industrial plants.
