Victoria Charles
2011-01-01 "A symbol of modernity, the Viennese Secession was defined by the rebellion of twenty artists who were against the conservative Vienna Künstlerhaus' oppressive influence over the city, the epoch, and the whole Austro-Hungarian Empire. Influenced by Art Nouveau, this movement (created in 1897 by Gustav Klimt, Carl Moll, and Josef Hoffmann) was not an anonymous artistic revolution. Defining itself as a "total art", without any political or commercial constraint, the Viennese Secession represented the ideological turmoil that affected craftsmen, architects, graphic artists, and designers from this period."--P.4 of dust jacket.

itself to be much more complex than a simple imitation of reality. Beyond exhibiting the skill of the artist, the portrait must surpass the task of imitation, as just and precise as it may be, to translate both the intention of the artist as well as that of its patron, without betraying either's wishes.

Therefore, these silent witnesses, carefully selected in these pages, reveal more than faces of historic figures or anonymous subjects: they reveal a psychology more than an identity, illustrate an allegory, serve as political and religious propaganda, and embody the customs of their epochs. With its impressive number of masterpieces, biographies, and commentaries on works, this book presents and analyses different portraits, consequently

exposing to the reader, and to any art lover, a reflection of the evolution of society, and above all the upheavals of a genre that, over 300 centuries of painting, has shaped the history of art.

are the sacred and the scandalous, the minimalist and the opulent, the groundbreaking and the conventional. There are paintings that captured the feeling of an era and those that signaled the beginning of a new one. Works of art that were immediately recognised for their genius, and others that were at first met with resistance. All have stood the test of time and in their own ways contribute to the dialectic on what makes a painting great, how notions of art have changed, to what degree art reflects reality, and to what degree it alters it. Brought together, these great works illuminate the changing preoccupations and insights of our ancestors, and give us pause to consider which paintings from our own era will ultimately join

the canon.

Escher, Pablo Picasso, and everyone in between.

**Hester Thrale Piozzi,
Portrait of a Literary
Woman** William McCarthy

1985 Much has been written about Thrale, friend and hostess of Samuel Johnson, but this is the first study to focus on Piozzi as the writer. In his narrative of her life, McCarthy draws on a large body of published and unpublished sources to map Piozzi's literary development, define her literary identity, and evaluate her achievement. In addition to reexamining her best-known works, he presents the first serious treatment of her poetry, political works, and historical writings. Originally published in
