selling bikes in the world since the mid-1960s, driven by the "big four": Honda, Yamaha, Suzuki, and Kawasaki. Of course certain bikes have always had a following - Honda CB750, 305 Hawk, CB400-4, Benly; Suzuki GT750, Katana, GS1000S; Yamaha XS650, RD400 Daytona, TZ; Kawaski H1, H2, Z1R - and these have now become the blue-chip Japanese bikes leading collectors to seek out more common (and now more affordable) alternatives. This is the perfect book for anyone interested in classic Japanese motorcycles, as well as prepping a bike to build a cafe racer, street tracker, or other custom build.

**Lines from the Times** Guy Kent 2009 Real life is the birthplace of the best stories. The tales related in Lines From the Times are drawn from real life. Lacking the length of a short story, these tales are pithy reflections on life as it is encountered by the author. From a little girl's conversation on a park bench, a grown man flying a kite in the church yard, a daughter's attempts to rein in an indulgent grandfather, a homeless man or a drug-influenced woman seeking direction, an adventure getting children off to school, strangers passed along life's journey, all combine to entertain and delight. These are not sermons by any means, but hey are parables of life where one finds a lesson taught, a prejudice challenged or

a value uplifted. Lines From the Times is a mirror held up to our age reflecting our beauty and our blemishes. There's love in these pages; there's sadness for love not shown. There's acceptance here; there's rejection. We can find ourselves tucked inside the stories, ourselves at our best and at our worse.

Brembo 60 Vincenzo Borgomeo 2021-11-25 Brembo, a leader in the development and production of high performance braking systems is turning 60. Over the decades, the principal mission of the Italian company has been to brake to best effect the greats on two and four wheels as well as daily users of private cars and motorcycles. The history, evolution and on-going success of this prestigious Italian company are the themes of this official book, which opens with a preface by the Brembo chairman, Alberto Bombassei. The book reviews the diverse facets of the "Brembo universe": from its commitments

in the automotive, motorcycling and motorsport fields to its attention to all aspects of design, always one of Brembo's strong suits, from the progressive internationalization of the company through to the particularly topical aspects of sustainable production. The contributions of the six principal authors - Vincenzo Borgomeo, Massimo Clarke, Gaetano Cocco, Patrizia Giangualiano, Lorenzo Ramaciotti and Umberto Zapelloni - are complemented by a similar number of testimonies from figures from within the company and those who worked there at length. The Brembo "phenomenon" is also presented through a wealth of fascinating photographs, mostly drawn from the company archives, which document the unique story of a manufacturing company born in Italy and now a true icon of Italian excellence throughout the world.
