that pushed Canada to come into its own on the world stage. A Time Such as There Never Was Before Ottawa Book Award 2015 — Shortlisted The years after World War I were among the most tumultuous in Canadian history: a period of unremitting change, drama, and conflict. They were, in the words of Stephen Leacock, “a time such as there never was before.” The war had been a great crusade, and its end was supposed to bring a world made new. But the conflict had cost sixty thousand Canadian lives, with many more wounded, and had stirred up divisions in the young, diverse country. With Canada struggling to define itself, labour, farmers, business, the church, social reformers, and minorities all held extravagant hopes, irrational fears, and contradictory demands. Whose hopes would be realized, and whose dreams would end in disillusionment? Which changes would prove permanent and which would be transitory? A Time Such As There Never Was Before describes how this exciting period laid the foundation of

the Canada we know today. On the Front Line of Life In the last decade of his life, Stephen Leacock turned to writing informal essays that blended humour with a conversational style and ripened wisdom to address issues he cared about most — education, literature, economics, Canada and its place in the world — and to confront the joys and sorrows of his own life. With an introduction that sets them in the context of his life, thoughts and times, these essays reveal a passionate, intelligent, personal Leacock, against a backdrop of Depression and war, finding hope and conveying the timeless message that only the human spirit can bring social justice, peace, and progress.

City of Order Michael Boudreau 2012-05-15 Interwar Halifax was a city in flux, a place where citizens debated adopting new ideas and technologies but agreed on one thing -- modernity was corrupting public morality and unleashing untold social problems on their fair city. To create a bulwark against further social

dislocation, citizens, policy makers, and officials modernized the city's machinery of order -- courts, prisons, and the police force -- and placed greater emphasis on crime control. These tough-on-crime measures, Boudreau argues, did not resolve problems but rather singled out ethnic minorities, working-class men, and female and juvenile offenders as problem figures in the eternal quest for order.

Sport, Violence and Society Kevin Young

2019-03-28 In this fully updated and revised new edition of his landmark study of violence in and around contemporary sport, Kevin Young offers a comprehensive sociological analysis of an issue of central importance within sport studies. The book explores organised and spontaneous violence, both on the field and off, and calls for a much broader definition of 'sports-related violence', to include issues as diverse as criminal behaviour by players, abuse within sport and exploitative labour practices. Offering a sophisticated theoretical framework for

understanding violence in a sporting context and including new case studies and updated empirical data - from professional soccer in Europe to ice hockey in North America - the book establishes a benchmark for the study of violence within sport and wider society. Through close examination of often contradictory trends, from anti-violence initiatives in professional sports leagues to the role of the media in encouraging hyper-aggression, the book throws new light on our understanding of the socially-embedded character of sport and its fundamental ties to history, culture, politics, social class, gender and the law. This new edition also recognises burgeoning new literatures, such as research examining concussion and the link between sport and mental illness and includes student-friendly pedagogical aids, such as critical thinking questions at the end of each chapter. Sport, Violence and Society is a vital read for anyone studying or working in the areas of the Sociology

of Sport, Sport Psychology, Ethics and Philosophy of Sport, Sport and Politics, Sports History, and Sport and the Media.

Alberta Labour Warren Caragata 1979-01-01

History has traditionally taken the working man for granted, ignoring the fact that without his labour there would be no history. As this book shows, the history of working people in Canada is colourful, exciting and filled with many dramatic characters and events well worth discovering. *Alberta Labour* traces the growth of union organizations in Alberta like the Knights of Labour in the 1880s, the legendary Wobblies, the abortive One Big Union and finally the Alberta Federation of Labour, founded in 1912, which today represents and fights for the labouring men and women of the province. This history, the first of its kind, has been compiled from interviews with union members, original letters and documents, and contemporary newspapers and magazines. The text is illustrated with over 90 full-page photographs,

most of them never published before, depicting labour at work in Alberta from its origins to the present day.

The Kentucky African American Encyclopedia

Gerald L. Smith 2015-07-16 The story of African Americans in Kentucky is as diverse and vibrant as the state's general history. The work of more than 150 writers, *The Kentucky African American Encyclopedia* is an essential guide to the black experience in the Commonwealth. The encyclopedia includes biographical sketches of politicians and community leaders as well as pioneers in art, science, and industry. Kentucky's impact on the national scene is registered in an array of notable figures, such as writers William Wells Brown and bell hooks, reformers Bessie Lucas Allen and Shelby Lanier Jr., sports icons Muhammad Ali and Isaac Murphy, civil rights leaders Whitney Young Jr. and Georgia Powers, and entertainers Ernest Hogan, Helen Humes, and the Nappy Roots. Featuring entries on the individuals, events,

places, organizations, movements, and institutions that have shaped the state's history since its origins, the volume also includes topical essays on the civil rights movement, Eastern Kentucky coalfields, business, education, and women. For researchers, students, and all who cherish local history, The Kentucky African American Encyclopedia is an indispensable reference that highlights the diversity of the state's culture and history.

Diplomatic Interference and the Law Paul

Behrens 2016-05-05 Diplomatic interference carries considerable potential for disruption. In this context, diplomats have been accused of insulting behaviour, the funding of political parties, incitement to terrorism and even attempts to topple the host government. Reactions can be harsh: expulsions are common and, occasionally, diplomatic relations are severed altogether. But an evaluation under international law faces challenges. Often enough, charges of interference are made when legitimate interests are involved – for instance, when diplomats criticise the human rights record of their hosts. In such cases, diplomats may be able to invoke grounds which are recognised under international law. On the basis of more than 300 cases of alleged diplomatic interference and the practice of about 100 States and territories, Diplomatic Interference and the Law provides an examination of the

main areas in which charges of meddling have arisen – such as lobbying activities, contacts with the opposition, propaganda, the use of threats and insults and the granting of asylum. It analyses situations in which the sovereignty of the receiving State meets competing interests and offers solutions which avoid a conflict of norms. It concludes with useful advice for foreign offices and diplomatic agents and underlines the most efficient ways of dealing with situations of alleged interference. "A book that is here to stay! It is essential reading for diplomats, academics, journalists, students and everyone who has an interest in international law and justice. Based on rigorous research, Paul Behrens' book offers new and thoughtful perspectives on the Vienna Convention on Diplomatic Relations which we drafted in 1961. It demonstrates just how important it is to have a lawyer of his impartiality and integrity if we want to reach peaceful and lasting solutions in international relations. Diplomatic Interference

and the Law has the makings of an instant classic, and I have no doubt that it will pave the way for the sorely needed reform of diplomatic law." Dr Nelson Iriñiz Casás, Vice President of the Committee of the Whole of the Vienna Conference on Diplomatic Relations in 1961; former Head of the diplomatic missions of Uruguay to Austria, Czechoslovakia, Hong Kong, Denmark and Sweden; author of *Corrupción en la ONU*. "Dr Behrens's book rigorously analyses the legal doctrine of non-interference by diplomats in their hosts' internal affairs, and how it may conflict with legal obligations to combat, for example, denial of self-determination and breaches of human rights. Exhaustively researched and in accessible language, with copious, often entertaining examples, it will be an indispensable guide for diplomats. "Behrens on diplomatic interference" will be cited as the definitive authority on the matter for the foreseeable future. I recommend this book to diplomats, lawyers and the general

reader: they will all read and refer to it with profit and immense pleasure." Sir Brian Barder KCMG, BA (Cantab.), is a former British ambassador to Ethiopia, Bénin and Poland and High Commissioner to Nigeria and Australia. "Paul Behrens' book breaks new ground. It is the first study to focus on the vexed question of diplomatic 'meddling' in the domestic affairs of the receiving State. It has heightened topicality as many Western governments in their concern to promote human rights and democracy urge their diplomats to be active in their support of civil society, particularly in countries with authoritarian governments. This book is replete with case studies covering the 50 years since the signature of the Vienna Convention and provides an invaluable pathway through this legal minefield." Sir Ivor Roberts KCMG FCIL, President of Trinity College, Oxford; Former British Ambassador to Yugoslavia, Ireland and Italy
The Billionaire Murders Kevin Donovan

2019-10-29 NATIONAL BESTSELLER A top journalist crosses the yellow tape to investigate a shocking high-society crime. Billionaires, philanthropists, socialites . . . victims. Barry and Honey Sherman appeared to lead charmed lives. But the world was shocked in late 2017 when their bodies were found in a bizarre tableau in their elegant Toronto home. First described as murder-suicide — belts looped around their necks, they were found seated beside their basement swimming pool — police later ruled it a staged, targeted double murder. Nothing about the case made sense to friends of the founder of one of the world's largest generic pharmaceutical firms and his wife, a powerhouse in Canada's charity world. Together, their wealth has been estimated at well over \$4.7 billion. There was another side to the story. A strategic genius who built a large generic drug company — Apotex Inc. — Barry Sherman was a self-described workaholic, renowned risk-taker, and disruptor during his fifty-year career.

Regarded as a generous friend by many, Sherman was also feared by others. He was criticized for stifling academic freedom and using the courts to win at all costs. Upset with building issues at his mansion, he sued and recouped millions from tradespeople. At the time of his death, Sherman had just won a decades-old legal case involving four cousins who wanted 20 percent of his fortune. Toronto Star investigative journalist Kevin Donovan chronicles the unsettling story from the beginning, interviewing family members, friends, and colleagues, and sheds new light on the Shermans' lives and the disturbing double murder. Deeply researched and authoritative, *The Billionaire Murders* is a compulsively readable tale of a strange and perplexing crime.

International Perspectives on Police

Education and Training Perry Stanislas

2013-10-30 Training and education constitutes the backbone of a significant amount of police activity and expenditure in developing the most important resources involved in policing work. It also involves an array of actors and agencies, such as educational institutions which have a long and important relationship with police organizations. This book examines the role of education and training in the development of police in the contemporary world. Bringing together specialist scholars and practitioners from around the world, the book examines training methods in the UK, the USA, Australia, Canada, China, France, Hungary, India, the Netherlands, St Lucia and Sweden. The book throws light on important aspects of public

service policing, and new areas of public and private provision, through the lens of training and development. It will be of interest to policing scholars and those involved in professional and organizational development worldwide.

The Proceedings of the 19th Annual History of Medicine Days Conference 2010 Beth Cusitar 2014-07-18 This volume is the second in a peer-reviewed series of Proceedings Volumes from the Calgary History of Medicine Days conferences, produced by Cambridge Scholars Publishing. The History of Medicine Days is a two day, national conference held annually at the University of Calgary, Canada, where undergraduate and early graduate students from across Canada, the US, the UK and Europe give paper and poster presentations on a wide variety of topics from the history of medicine and health care. The selected 2010 conference papers assembled in this volume particularly comprise the history of Applications of Science to

Medicine, Nursing, Public Health, Illness and Disease, Stigma and Gender, Neurology and Psychiatry, and Eugenics. The 2010 keynote address was delivered by Distinguished Professor of the History of Nursing and Public Health, Dr Geertje Boschma from the University of British Columbia, Vancouver, and is reprinted in the current volume. This volume also includes the abstracts of all 2010 conference presentations and is well-illustrated with diagrams and images pertaining to the history of medicine.

Environmental Racism in the United States and Canada: Seeking Justice and Sustainability

Bruce E. Johansen 2020-04-30
From Flint, MI to Standing Rock, ND, minorities have found themselves losing the battle for clean resources and a healthy environment. This book provides a modern history of such environmental injustices in the U.S. and Canada. From the 19th-century extermination of the buffalo in the

American West, to Alaska's Project Chariot (a Cold War initiative that planned to use atomic bombs to blast out a harbor on Eskimo land), to the struggle for recovery and justice in Puerto Rico following Hurricane Maria in 2017, this book provides readers with an enhanced understanding of how poor and minority people are affected by natural and manmade environmental crises. Written for undergraduates as well as the general reader with an interest in social justice and environmental issues, this book traces the relationship between environmental discrimination, race, and class through a comprehensive case history of environmental injustices. Environmental Racism in the United States and Canada: Seeking Justice and Sustainability includes 50 such case studies that range from local to national to international crises. Provides comprehensive coverage and analysis of the far-reaching specter of environmental racism in the U.S. and Canada,

using numerous case studies that extend across the U.S. and Canada from the 19th century into the present day Examines the confluence of climate change, natural resource conflicts, political and corporate corruption, and racism Reflects a regional arrangement to better highlight patterns and types of injustices as well as victims Is written by a prolific author and expert on environmental and Native American issues

Handbook of Sports Studies Jay J. Coakley Eric Dunning 2000-08-29 Now available in paperback, this vital handbook marks the development of sports studies as a major new discipline within the social sciences. Edited by the leading sociologist of sport, Eric Dunning, and Jay Coakley, author of the best selling textbook on sport in the USA, it both reflects and richly endorses this new found status. Key aspects of the Handbook include: an inventory of the principal achievements in the field; a guide to the chief conflicts and difficulties in the

theory and research process; a rallying point for researchers who are established or new to the field, which sets the agenda for future developments; a resource book for teachers who wish to establish new curricula and develop courses and programmes in the area of sports studies. With an international and interdisciplinary team of contributors the Handbook of Sports Studies is comprehensive in scope, relevant in content and far-reaching in its discussion of future prospect.

Chicago Tribune Index 1994

Aggressive in Pursuit Frederick Vaughan 2004-01-01 Few people have had a greater impact on the lives of Canadians than the late Supreme Court judge Justice Emmett Hall. At the forefront of several important judgements in the 1960s and 70s ? such as Truscott and Calder ? Hall is perhaps best known for his role in the adoption of universal health care at the federal level in 1968. Based on extensive interviews with Hall and people who knew him, Frederick

Vaughan's *Aggressive in Pursuit* tells Hall's remarkable story. Born in Quebec in 1898 and raised in Saskatchewan, Hall had a long and distinguished career as a lawyer. In 1957, former law school classmate Prime Minister John Diefenbaker appointed Hall to the Saskatchewan Court of Queen's Bench, and four years later to the office of Chief Justice of Saskatchewan. In 1963, Diefenbaker elevated Hall to the Supreme Court of Canada, where he took up the task of universal health care and showed himself to be an aggressive defender of native causes.

Aggressive in Pursuit traces Hall's career from his earliest days of private practice in Saskatchewan to the end of his career, and death, in 1994. It shows how one prairie lawyer made a difference in the life of Canada.

[Hunting the President](#) Mel Ayton 2014-04-14 In American history, four U.S. Presidents have been murdered at the hands of an assassin. In each case the assassinations changed the course of American history. But most historians have

overlooked or downplayed the many threats modern presidents have faced, and survived. Author Mel Ayton sets the record straight in his new book *Hunting the President: Threats, Plots and Assassination Attempts—From FDR to Obama*, telling the sensational story of largely forgotten—or never-before revealed—malicious attempts to slay America's leaders. Supported by court records, newspaper archives, government reports, FBI files, and transcripts of interviews from presidential libraries, *Hunting the President* reveals: How an armed, would-be assassin stalked President Roosevelt and spent ten days waiting across the street from the White House for his chance to shoot him How the Secret Service foiled a plot by a Cuban immigrant who told coworkers he was going to shoot LBJ from a window overlooking the president's motorcade route How a deranged man broke into Reagan's California home and attempted to strangle the former president before he was subdued by Secret Service agents.

In early 1992 a mentally deranged man stalking Bush turned up at the wrong presidential venue for his planned assassination attempt. The relationships presidents held with their protectors and the effect it had on the Secret Service's mission. *Hunting the President* opens the vault of stories about how many of our recent Presidents have come within a hair's breadth of assassination, leaving America's fate in the balance. Most of these stories have remained buried—until now.

Canadian Organized Crime Stephen Schneider 2017-12-15 Through an in-depth introduction to organized crime and its control in Canada, this thought-provoking text seeks to answer the question, is there a distinctive Canadian version of organized crime? By exploring and critically analyzing definitions, case studies, theories, research, criminal justice policies, and enforcement approaches, this engaging volume will help students understand the complex nature of Canadian organized crime

and its varied treatment in academic literature, popular culture, and government policies. Drawing on more than 25 years of research, Stephen Schneider identifies the historical and contemporary factors that contribute to the creation and proliferation of organized criminal activities in this country. In the process, he dispels the enduring myths and chronic misinformation that have engulfed this topic for so many years. Emphasizing an active learning approach that includes numerous case studies, critical thinking questions, a bibliography of relevant readings, and a companion website, this comprehensive volume is the perfect classroom resource for Canadian students in courses on organized crime.

The World Encyclopedia of Serial Killers:

Volume One, A-D Susan Hall 2020-06-02 The first volume featuring the most infamous killers throughout history—from Afghanistan's Abdullah Shah to Kazakh cannibal Nikolai Dzhumagaliev. The World Encyclopedia of Serial Killers is the most comprehensive set of its kind in the history of true crime publishing. Written and compiled by Susan Hall, the four-volume set has more than 1600 entries of male and female serial killers from around the world. Defined by the FBI as a person who murders three or more people over a period of time with a hiatus of weeks or months between murders, serial killers have walked among us from the dawn of time as these books will demonstrate. While the entries to these volumes will continue to grow—the FBI estimates that there are at least fifty serial killers operating in the United States at any given time—The World Encyclopedia of Serial Killers is as complete as possible through the end of 2017. The set begins with Volume One, Letters A-D. The entries include Ted Bundy, the

led to the arrival in Canada of the world's most dangerous criminal organizations: the drug cartels of Mexico. A man watching the Euro Cup on a restaurant patio is shot dead on a busy Sunday afternoon in Toronto. Another dies in a sidewalk ambush just outside a bus-tling college campus. Two men in a Vancouver hotel lobby are gunned down in an attack that sends an American soccer star scrambling for cover. In Mexico, a Canadian is killed at a Nuevo Vallarta coffee shop, his death barely registering amidst the terrifying death tolls of President Calderón's war on drugs and the cartels' response; while a Montreal cop is beaten within an inch of his life in a Playa del Carmen nightclub. An infamous heckler from an NBA Toronto Raptors game turns up dead in a bullet-riddled car in a midtown lane-way. Throughout the 2010s, these and other disparate acts of violence entered the public awareness like iso-lated tragedies—but there was nothing isolated about them. In this

masterly investigation, veteran journalists Peter Edwards and Luis Nájera introduce readers to the common cause of a near-decade of chaos. Meet the Wolfpack, millennial-aged gangsters from across the spectrum of Canada's underworld. Vying to fast-track their way into the criminal void left by the death of Montreal godfather Vito Rizzuto, the Wolfpack sought advantage in a steady supply of cocaine from El Chapo Guzmán's Sinaloa cartel, among the deadliest and most far-reaching of criminal organizations. The juniors had just stepped into the big leagues. This is the roiling landscape of The Wolfpack, a brilliant examination of a time of criminal disruption and rapid adaptation, when one gang's unchecked ambition unwittingly gave away the most hotly contested corner of the Canadian underworld without a fight. Brazen criminal disruptors or entitled upstarts looking to get rich without paying their dues--whatever you think of them, you will never forget the Wolfpack.
