*TheStreet.com Ratings Guide to Health Insurers, Winter 2008-2009* Laura Mars-Proietti 2009-02  
TheStreet.com Ratings Guide to Health Insurers is the first and only source to cover the financial stability of the nation's health care system, rating the financial safety of more than 6,000 health insurance providers, health maintenance

organizations (HMOs) and all of the Blue Cross Blue Shield plans - updated quarterly to ensure the most accurate information. The Guide also provides a complete listing of all the major health insurers, including all Long-Term Care and Medigap insurers. Our Guide to Health Insurers includes comprehensive, timely coverage on the financial stability of HMOs and health insurers; the most accurate insurance company ratings available-the same quality ratings heralded by the U.S. General Accounting Office; separate listings for those companies offering Medigap and long-term care policies; the number of serious consumer complaints filed against most HMOs so you can see who is actually providing the best (or worst) service

and more. The easy-to-use layout gives you a one-line summary analysis for each company that we track, followed by an in-depth, detailed analysis of all HMOs and the largest health insurers. The guide also includes a list of TheStreet.com Ratings Recommended Companies with information on how to contact them, and the reasoning behind any rating upgrades or downgrades.

*The Semantic Web* Yong-jiang Yu 2009-12-15 The Annual Asian Semantic Web Conference is one of the largest regional events in Asia with focused topics related to the Semantic Web. With the decade-round endeavor of Semantic Web believers, researchers and practitioners, the Semantic Web has made remarkable progress recently. It has raised significant attention from US and UK governments, as well as the European Commission who are willing to deploy Semantic Web technologies to enhance the transparency of eGovernment. The Linked Open Data initiative is on its way to convert the current document Web into a data Web and to further enabling various data and service mashups. The fast adoption of Semantic Web technologies in medical and life sciences has

created impressive showcases to the world. All these efforts are a crucial step toward enabling the take-off and the success of the Semantic Web. The First Asian Semantic Web Conference was successfully held in China in 2006. With the following editions in Korea in 2007 and Thailand in 2008, it fostered a regional forum for connecting researchers and triggering innovations. This year, the 4th Asian Semantic Web Conference was held in Shanghai, China. We received 63 submissions from Asia, Europe, and North America, and 25 papers were accepted (the acceptance rate is around 40%). Each submission was reviewed by at least three members of the Program Committee. The Chairs moderated the discussion of conflict reviews or

invited external reviewers to reach the final decisions.
