Hav Jan Morris 2011-08-30 A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited

by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the

corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When Morris published *Last Letters from Hav* in 1985, it was short-listed for the Booker Prize. Here it is joined by *Hav of the Myrmidons*, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

Global Tax Fairness Thomas Pogge 2016-02-04

This book addresses sixteen different reform proposals that are urgently needed to correct the fault lines in the international tax system as it exists today, and which deprive both developing and developed countries of critical tax resources. It offers clear and concrete ideas on how the reforms can be achieved and why they are important for a more just and equitable global system to prevail. The key to reducing the tax gap and consequent human rights deficit in poor countries is global financial transparency. Such transparency is essential to curbing illicit financial flows that drain less developed countries of capital and tax revenues, and are an impediment to sustainable development. A major break-through for financial transparency is now within reach. The policy reforms outlined in this

book not only advance tax justice but also protect human rights by curtailing illegal activity and making available more resources for development. While the reforms are realistic they require both political and an informed and engaged civil society that can put pressure on governments and policy makers to act.

dead by a young Polish Jew, Margarita
Ejzenstein. In retaliation, his commander orders
the execution of thirty-seven Poles - one for

Tokyo Kyoichi Tsuzuki 1999-09-01 Ah, think of the serene gardens, tatami mats, Zen-inspired decor, sliding doors, and shoji screens of the

typical Japanese home. Think again. Tokyo: A Certain Style, the mini-sized decor book with a difference, shows how, for those living in one of the worlds most expensive and densely packed metropolises, closet-sized apartments stacked to the ceiling with gadgetry and CDs are the norm. Photographer Kyoichi Tsuzuki rode his scooter all over Tokyo snapping shots of how urban Japanese really live. Hundreds of photographs reveal the real Tokyo style: microapartments, mini and modular everything, rooms filled to the rafters with electronics, piles of books and clothes, clans of remote controls, collections of sundry objets all crammed into a space where every inch counts. Tsuzuki introduces each tiny crash pad with a brief text about who lives there, from artists and students to professionals and couples with children. His entertaining captions to the hundreds of photographs capture the spirit and ingenuity required to live in such small quarters. This fascinating, voyeuristic look at modern life comes in a chunky, pocket-sized

format-the perfect coffee table book for people with really small apartments.
