**The Field Guide to John Deere Tractors** Don Macmillan 2019-11-19 When you're "out in the field" scouting for John Deere tractors, don't forget to take along The Field Guide to John Deere: Classic Tractors 1892-1991—the first-ever, full-color pocket guidebook to these popular tractors! This convenient, easy-to-use field guide puts a wealth of information right into your hands! You'll find brief histories, model runs, specification details, and eye-catching color photographs of more than 500 models of John Deere tractors, from the two-cylinder series of 1892 to modern multi-cylinder models. The late Don Macmillan is considered one of the world's most respected John Deere historians. Inside, he breaks down John Deere's rich heritage into distinct eras: The Pioneering Years, 1892–1924 The Unstyled Years, 1923–1938 The Styled Years, 1938–1960 The Numbered Series, 1952–1960 The New Generation of Power, 1959–1972 Generation II, 1972–1987 The Modern Years, 1982–1991 A wealth of photos of every John Deere tractor—from the legendary two-cylinder Waterloo Boy that started it all to six-cylinder, 200-horsepower machines of the 1980s—are accompanied by detail-rich descriptions of the tractors' features and back stories, as well as concise charts presenting key specifications. For fans of old iron, there's no better quick reference that's equally useful at swap meets and in the armchair.

**Eero Saarinen** Eero Saarinen 2006-01-01 From the swooping concrete vaults of the TWA Terminal at JFK Airport to the 630-foot-tall Gateway Arch in St. Louis, the iconic designs of Eero Saarinen (1910-1961) captured the aspirations and

values of mid-20th-century America. Potent expressions of national power, these and other Saarinen-designed structures--including the GM Technical Center, Dulles International Airport, and John Deere headquarters--helped create the international image of the United States in the decades following World War II. "Eero Saarinen: Shaping the Future" offers a new and wide-ranging look at the entire scope of Saarinen's career. This is the first book on Saarinen to incorporate significant research and materials from the newly available archives of his office, and includes the most complete portfolio of Saarinen's projects to date--a chronological survey of more than 100 built and unbuilt works, previously unpublished photographs, plans, and working drawings. Lavishly illustrated, this major study shows how Saarinen gave his structures an expressive dimension and helped introduce modern architecture to the mainstream of American practice. In his search for a richer and more varied modern architecture, Saarinen became one of the most prolific and controversial practitioners of his time.Exhibition schedule: Helsinki Kunsthalle, Finland (October 6--December 6, 2006) Centre International pour la Ville, l'Architecture et le Paysage (CIVA), Brussels (Spring 2007) National Building Museum, Washington, D.C. (Winter / Spring 2008) Additional venues to be determined

**John Deere New Generation and Generation II Tractors** John Dietz 2011-01-15 In the 1960s and 1970s, John Deere's tractors evolved dramatically from small machines into large, powerful tractors with modern advances and muscular engines; it was a period of the greatest changes since the 1920s. Deere christened these tractors the New Generation. This book in the Tractor Legacy series examines these Big Green machines in detail, with archival and current photography of restored tractors, a thorough historical text, and details of model specifications and variations.

**Horicon and Horicon Marsh** Susan Brunner 2008-12 The city of Horicon has grown beyond its mill town roots to become home to John Deere, Gardner Manufacturing, and many community events. Meanwhile, Horicon Marsh has loomed to the north with its own story to tell. Over the years, what was once the land of the Winnebagos has been flooded, drained, dredged, and farmed. However, thanks to a restoration movement that began in the 1920s, Horicon Marsh stands today as the largest freshwater cattail marsh in the United States.
